6301 Dana Street, Oakland, CA | 415-846-8702 | denise@dmdekker.io | www.dmdekker.io

SUMMARY

Recent Computer Science graduate (B.A.) with 13+ years experience in a purchasing/logistics role. A growth mindset learner, I'm a personable, passionate individual, who excels in building professional relationships and solving problems.

EDUCATION

B.A. in Computer Science, Mills College, Oakland, CA.

May, 2017

GPA: 3.87

Dean's Scholar (since 2015)

Phi Theta Kappa Honor Society (since 2014)

TECHNOLOGY SUMMARY

[Familiar]: HTML5, CSS, Jade, Bootstrap, Java, Cloud 9, GitHub, Eclipse IDE, Brackets, Axure, MS Office, Adobe XD, Heroku.

[Learning]: JavaScript, MEAN Stack, Android, JQuery, Adobe Creative Suite.

EXPERIENCE

Product Manager/Developer Intern, Caravan Studios (2016 to current)

- Heuristic Evaluation, and end-to-end UI/UX redesign, of Caravan Studio's 4Bells app to improve app appearance and function, especially for seniors.
- Created personas, use model, and high fidelity UI prototypes.
- Incorporated WCAG accessibility guidelines to leverage access for a wider audience of users.
- Wrote scripts for, and conducted, user testing; incorporated feedback into the next iteration/prototype.

Front End Design, CitizensOrg (2016)

- Designed login, input forms, and dashboard to work with HTTP requests; made site responsive for all viewport sizes.
- Managed style for site; chose color palette and organized site design/appearance.
- Resolved problems with FOUC that occurred with Angular.

Product Manager/UI/UX design, SproutWare (2016)

- Developed a compelling ecommerce site that provided detailed, expert information to customers purchasing developmentally appropriate and educational toys.
- Created personas, use model, wireframe, high fidelity prototypes, and performed heuristic evaluation to

deliver a user friendly, attractive product.

- Facilitated user testing at wireframe and high fidelity stages of design; incorporated user feedback into designs.

Veritable Vegetable, Inc. (1997 to 2013)

- Forecasting for long and short-term buying with farmers, brokers, and wholesalers; purchased extensive line of organic, fresh produce that met company specifications for profit margin, quality, and quantity.
- Managed department deadlines for in-house fleet of trucks; liaised with Trucking Department dispatcher to inform route planning and allocation.
- Co-director of Farm and Field Program, an in-house program to connect workers with vendors through visits to farms/facilities.
- Regular contributor to company newsletter/website; provided product information updates, marketing information, and buying guide for customers.
